

## INVESTING IN ARKANSAS

(July 2020) The Policy Foundation's Efficiency Project (2015-16) , funded with support from private foundations represented an investment in Arkansas' economic future.

Savings from the Project and subsequent efforts to transform and reorganize Arkansas state government (2017-19) are leading to the achievement of fiscal policy goals.

Arkansas' economy will become more competitive as Gov. Asa Hutchinson and his administration achieve these fiscal goals.
